### B. Compliance

All ARTS-7000 and all ADTS with 2-3 Channels In Service Units should be upgraded to the new software revision.

### C. Concurrent Requirements

N.A.

### D. Reason

We are introducing a new application that consolidates the functionalities of all our aircraft apps.

## E. Description

Introducing a new application that consolidates the functionalities of the following apps:

- **ARTS**
- **2-Ch / v1.3**
- **3-Ch / v1.1**

### **Login Requirement**

A login is required to access the application. If you already have an account from the ARTS app, you can use the same credentials to log in to the new aviation app.

### **Enhanced Initial Screen**

The initial screen has been upgraded for improved connectivity, providing more detailed information about the unit and app status.

### **Key Features:**

- **ARTS Section:** Retains all the core features of the original ARTS app.
- **ADTS Section:** Automatically detects whether the unit is 2-channel or 3-channel. The interface has been optimized, and user profiles are now stored directly within the app.

### **System Requirements:**

- **iPadOS 13** or later
